**What does a Registered
Apprenticeship Mean?**

- ⇒ It means on-the-job training, as well as related classroom instruction.
- ⇒ It means scheduled, graduated pay increases.
- ⇒ It means, whatever the current apprentice wage classification, the apprentice earns the same amount of money whichever contractor they are working for.
- ⇒ It puts apprentices on a real career track, with health-care benefits and pension security.
- ⇒ Is certified by the Office of Apprenticeship, U.S. Dept. of Labor.
- ⇒ Is jointly sponsored and administered by labor and management.

Project Labor Agreements

A Project Labor Agreement (PLA) is a prehire contract between construction labor and management that governs pay rates, benefits, work rules, and dispute resolution. A PLA generally assures a qualified, skilled workforce for an owner, and provides an owner and contractor with certainty when it comes to workers' wages, shifts, safety standards and no-strikes or lockouts. Large Michigan based construction contractors and endusers like American Electric Power, Barton-Malow, Christman, Clark Skanska, Kellogg Community College, and Walbridge often insist on using PLAs for their projects because PLAs provide a level of certainty. When contractors go to bid on a project, a PLA provides them with a ready, skilled labor force, an understanding of how much overtime will cost, workforce shift flexibility, a workforce that has been through standardized safety training and drug testing, and the assurance of no labor disruptions. Oftentimes, having certainty on those issues doesn't cost extra, but saves contractors and owners money.
