

Congratulations on Your Upcoming Construction Project!

The West Michigan Construction Alliance is a labor/management organization of the organized construction industry in West and Southwest Michigan. Through our organization, customers have access to over 400 contractors and 5,000 construction workers. We look forward in helping you make your construction project a success.

Our contractors use local area construction workers who are trained and licensed to the highest standards. Using the local construction industry makes your investment dollars grow our community and benefit families building your project. We have been building Michigan for over 100 years with a proven track record of quality, service and value.

Enclosed is our 2008-09 Contractor Directory. We'd appreciate if you would consider using our experienced contractors in order to bring your project in on time, under budget with quality assurance being our highest priority.

Please contact us if we can further assist you.

Sincerely,
