

B&V Mechanical Appoints Project Manager/Estimator

August 20, 2008

Andy VanderMoren

B&V Mechanical Inc., a full service mechanical, plumbing and Maintenance Company is pleased to announce Mr. Andy VanderMoren was recently appointed to the position of Engineer/Estimator.

Mr. VanderMoren graduated from Calvin College with an Engineering Degree. He worked at Trane Inc. as a project developer before joining B&V Mechanical. Mr. VanderMoren commented, "I am looking forward to help growing the business at B&V Mechanical. This is a good company with a bright future."

B&V Mechanical, Inc. located at 400 32nd Street SE Wyoming, MI (616-243-7222) is a full service mechanical, plumbing, and maintenance company. They specialize in all phases of mechanical construction for commercial and industrial clientele. The company provides licensed engineering and design services for HVAC and plumbing systems. B&V has an excellent background in both conventional and design/build construction delivery systems. They operate a 24-hour service department, with over 100 service contracts for commercial, industrial and municipal clients.

B&V is fully licensed and insured. They hold a master plumbing license, mechanical contractor's license and a state boilers license. The company is a member of the American Society of Refrigeration, Heating & Air Conditioning Engineers, Construction Financial Management Association, Mechanical Contractors Association of America, Michigan Plumbing and Mechanical Contractors Association, National Certified Pipe Welding Bureau, and the West Michigan Mechanical Contractors Association.
