

Johnson Controls Inc., Awarded MSCA STAR Contractor Certification

Grand Rapids, MI, September 30, 2009 – Johnson Controls Inc. (JCI) was recently awarded the MSCA Star Contractor Certification. MSCA STAR is an achievement designation for service excellence awarded to an elite group of mechanical service contractors by the Mechanical Service Contractors of America (MSCA), the nation's leading trade association representing the heating, ventilation, air conditioning and refrigeration (HVACR) service contractor. MSCA STAR companies have demonstrated they offer commercial business and facilities customers' unsurpassed support, quality workmanship and safe and reliable service.

“Obtaining the MSCA Star Certification continues our goal of providing the next generation of quality services to our customers,” remarked Tom Tasevich, Service Branch Manager.

JCI located at 3312 Lousma Drive, Grand Rapids, MI, is a quality mechanical contractor providing solutions for operating buildings effectively and efficiently to increase a building's energy efficiency and operational performance. Products and services include HVAC&R equipment and control systems, industrial and commercial refrigeration, fire and security systems and service for commercial, industrial and residential buildings. JCI's team of service providers offers service capabilities that extend beyond maintaining control systems and mechanical equipment.

JCI is affiliated with the West Michigan Mechanical Contractors Association, the local affiliate of the national MSCA.
